Environmental Sustainability

— A Green Future

TRUST strives to be environmentally friendly and stands by strict environmental standards and business practices. We also align with environmental protection institutions and organizations for the undertaking of environmental sustainability. Our research project is effectively reducing the carbon footprint of manufacturing commercial products by means of product innovation.

Our vision is to provide comprehensive working solutions of high quality. By helping people around the world in their day to day working environments, our products improve the lives of them. Environmental sustainability and environmental responsibility are our core competence.

Creation of safe, sustainable products - Trust designs, manufactures, and markets green products. Our environmentally friendly practices are established in order to protect, conserve, and sustain the world's natural resources.

Incorporating environmental campaign into our partnerships – Our green vision lead us to include our business partnerships in seeking the green future. We make every attempt to keep our clients informed of our efforts.

Perfect Waste Management System

We provide you with an efficient, low-cost waste management system. Our products are made of high quality material and have sturdy structure to prolong life.

Cost-Efficient

Our waste collection and transport solutions help reduce the repetition work significantly.

Sustainable Development

All our plastic containers are 100% recyclable.

Multiple Solutions

We provide you with products of various sizes, colors and materials to offer practical waste solutions for any areas at your place.

All-purpose Containers

THOR® Round Containers

Product Features:

1. All-plastic construction will not rust, chip, or peel; resists dents.
2. Comes with an ergonomic handle with a smooth and comfortable feeling.
3. Reinforced rims increase strength and durability.
4. Comes with four trash liner grooves for easy attachment without the need to tie knots.
5. Four vent channels provide 50% less worker exertion when lifting a filled trash liner compared with a traditional container.
6. Bottom hand grips of 30 mm width assist in emptying.
7. Double and ribbed base increases stability and dragging capacity.

Four vent channels provide 50% less worker exertion when lifting a filled trash liner compared with a traditional container.

Reinforced rims add strength and durability.

Bottom hand-grips of 30 mm width assist in emptying.

Double-ribbed base increases stability and dragging capacity.

Comes with four trash liner grooves for easy attachment without the need to tie knots.

Comes with an ergonomic handle with a smooth and comfortable feeling.

Perfect Waste Sorting and Recycling Solutions

From collection of waste sources to the sorting of various wastes, the big capacity bins can meet your different needs for various places.

Sorting and Recycling Device Which is Easy to be Identified

Recycling lids and bins of different colors can facilitate the recycling of recyclable paper, metal, bottles and other recyclable materials, making classification and recycling more convenient and efficient.

Sturdy and Durable

Durable and crack-resistant, even under tough indoor/ outdoor conditions.

Recycling Containers

THOR® Round Recycling Containers

Product Features:

1. Easy to maneuver.
2. Can serve as central collection containers or shipping containers, reducing the amount of handling.
3. Work in couple with dollies to transport recyclable waste with ease and efficiency.
4. Dollies are sold separately.
5. All containers come standard with "Recycle" symbols.

Model	Description	Dimensions	Capacity	Color	Pack
1016	THOR® Round Recycling Container	49.0 x 57.0 cm	75 L	BLUE	6

X Type Linen Carts

Product Features:

1. Fit for collecting all kinds of linens.
2. Durable, lightweight and ease control.
3. High quality canvas bag with side straps which allow for easy access.
4. Fold to save space and it makes storage and transport easier.
5. 5095 and 5096 storage bag used with linen cart are convenient for carrying cleaning supplies.

5095 and 5096 storage bag used with linen cart are convenient for carrying cleaning supplies.

Model	Description	Dimensions	Capacity	Color	Pack
5041	X Type Linen Cart	70.5 x 63.5 x 87.6 cm	170 L	GRAY	1
5042	X Type Linen Cart	94.0 x 66.0 x 101.0 cm	340 L	GRAY	1
5043	Cloth/Straw Bag, for 5041	65.5 x 58.5 x 67.5 cm	170 L	BRN	2
5044	Cloth/Straw Bag, for 5042	84.0 x 58.5 x 86.0 cm	340 L	BRN	2
5095	Fabric Hanging Organizers for 5041	64.0 x 68.5 x 3.0 cm	N/A	BRN	2
5096	Fabric Hanging Organizers for 5042	80.5 x 85.0 x 3.0 cm	N/A	BRN	2

Mopping Systems

All-in-one Buckets

Product Features:

1. An easy-to-maneuver mopping system, compact and powerful, carries all your needs for wet mopping and light cleaning.
2. Durable wringer allows for wringing for over 25,000 times.
3. Ergonomically designed handles fit your hands and height, and reduce the need for bending.
4. Non-marking all-plastic wheels reduce the post-job clean-up.
5. A discharge valve is available at the bottom of bucket to allow for emptying of dirty water without lifting.
6. A caddy is available to carry small cleaning tools which can be removed when not needed.
7. Build-in hook to hang Safety Signs.
8. Multi colors are available to reduce cross-contamination.

Non-marking all-plastic wheels reduce the post-job clean-up.

A caddy is available to carry small cleaning tools which can be removed when not needed.

Ergonomically designed handles fit your hands and height, and reduce the need for bending.

Comfortable hand grip assists in lifting and emptying dirty water.

A discharge valve is available at the bottom of bucket to allow for emptying of dirty water without lifting.

Has capacity to carry additional caddy (5262) at back for cleaning tools.

Grandmaid® Side Press Combos

Product Features:

1. The anti-splash mop bucket and wringer system reduces splashing, which means a safer environment, cleaner floors, and improved productivity.
2. High-efficiency wringer, wrings mop with 18% less effort.
3. Lasts 58 times longer than generic wringers.
4. Made of premium tubular steel and structural web molded plastic to ensure higher durability and toughness.
5. Ergonomically designed handles fit your hands and height, and reduce the need for bending.
6. Non-marking all-plastic wheels reduce the post-job clean-up.
7. Optional dirty water buckets keep the dirty water separate from the cleaning solution.

Comfortable hand grip assists in lifting and emptying dirty water.

Ergonomically designed handles fit your hands and height, and reduce the need for bending.

Dirty Water Bucket
1. Keeps the dirty water from clean water.

2. Maintains the cleaning capability of ceanser.
3. Minimizes the consumption of water and chemical.
4. Brings you cleaner floor.
5. Divides the liquid to reduce the bucket weight for lifting and assist in emptying.

7.5 cm non-marking all-plastic wheel.

Sturdy and efficient Mop Bucket and Wringer.

Mop holder to attach the mop securely.

Dirty Water Bucket for separation of clean water and dirty water.

Innovative anti-splash design helps reduce splashing.

5264	Quadrate Bucket	35.8 x 21.8 x 20.5 cm	9.5 L	RED,BLUE,GRN,YEL,BLA	6
5265	Quadrate Bucket	21.3 x 17.7 x 21.5 cm	4.7 L	RED,BLUE,GRN,YEL	6

Wet Mop Selection Guides

Wet Mops

Some points need to be noted in selection of wet mops. Please follow the selection guide given below to select the best wet mop for your floor maintenance.

Mops for General Cleanings

Mops with excellent absorbency, easy water release and high durability are preferred. If conditions permit, launderable mops are your best choice. Synthetic yarn, rayon and blend mops with looped-end and tailband are most launderable and bring you optimized performance.

Finish Mops

Mops with excellent absorbency, and easy water release are preferred. In addition, looped-end and tailbanded mops cover more floor area per stroke and reduce streaking.

Launderability and Durability :

Launderability is determined by the times to wash and dry the mop before it's worn out. The durability is indicated by the length of time to change a mop. Mops made of microfiber, rayon and blend have the highest durability.

Microfiber Synthetic Blend Rayon

Absorbencies :

Absorbency means the capability to retain liquid. Higher absorbency means shorter duration to dry the floor, higher working efficiency and safer operation. Microfiber, rayon and cotton mops are best in absorbency.

Microfiber Rayon Cotton Blend

Water-release Performance :

Water-release performance means the mop's capability to release water on the floor or during wringing. Stronger water release performance means shorter time needed to wring the mop and effective releasing of cleanser onto the floor. Microfiber, rayon and synthetic fiber mops have the strongest water release capability.

Microfiber Rayon Synthetic Blend

Cleaning Performance :

It indicates the capability to remove the dust and dirt from the floor.

Microfiber Antimicrobial Synthetic Rayon

Mop Selection Guides

Some points need to be noted in selection of wet mops. Please follow the selection guide given below to select the best mop for your floor.

General Cleanings

Mops with excellent absorbency, easy water release and high durability are preferred. If conditions permit, launderable mops are your best choice. Synthetic yarn, rayon and blend mops with looped-end and tailband are most launderable and bring you optimized performance.

Finishes

Mops with excellent absorbency, and easy water release are preferred. In addition, looped-end and tailbanded mops cover more floor area per stroke and reduce streaking.

Launderability and Durability

Launderability is determined by the times to wash and dry the mop before it's worn out. Synthetic yarn, rayon and blend mops have the best Launderability.

Water-release Performances

Water-release performance means the mop's capability to release water on the floor or during wringing. Stronger water release performance means shorter time needed to wring dry the mop and effective releasing of cleanser onto the floor. Rayon and synthetic fiber mops have the strongest water release capability.

Absorbencies

Absorbency means the capability to retain liquid. Higher absorbency means shorter duration to dry the floor, higher working efficiency and safer operation. Rayon and cotton mops are best in absorbency.

Durabilities

The durability is indicated by the length of time to change a mop. Rayon and blend Mops have the highest durability. Antimicrobial fiber mops are more durable thanks to its capability to inhibit the growth of bacterial, reduce odor and prevent fading.

Quick Connect Mops

Product Features:

1. Quick-connect mops fit for general cleaning
2. Quick-connect design makes assembly and replacement easier.
3. Looped-ends and yarn tailband mop have greater floor coverage
4. Balanced blend of cotton and synthetic yarns for higher absorbency, efficiency and longer product life.
5. Works with wringers (5211/5223/5226)
6. Optional handles (6413/6414) available, which are sold separately.

Antibiotic Blended Mops

Product Features:

1. Integrated antibiotic protection effectively inhibits the growth of bacteria, prevents odors and extends life cycles.
2. Made of a blend of polyester, antibiotic acrylic fibers and cotton.
3. Very moisture-absorbing, durable and effective cleaning.
4. Launderable, resistant to shrinking.
5. Looped ends and yarn tailband mop for greater floor coverage with each stroke.

Dust Mop Selection Guides

Select best cleaning tools for your facility according to the following guide:

Facility	Best	Better	Good
Hotels	Micro-fiber-dust Mop	Synthetic Dust Mop	Blended
Catering	Micro-fiber-dust Mop	Synthetic Dust Mop	Blended
Health Care	Micro-fiber-dust Mop	Blended Dust Mop	Synthetic Dust Mop
Industrial and Commercial	Micro-fiber-dust Mop	Synthetic Dust Mop	Blended Dust Mop
School	Micro-fiber-dust Mop	Synthetic Dust Mop	Synthetic Dust Mop
Office Building	Micro-fiber-dust Mop	Synthetic Dust Mop	Blended Dust Mop

Dust Moppings

Some key factors shall be considered in selecting a dust mop. Please follow the below guide to select best dust mop for your floor.

General Dust Moppings

Durable dust mops with high dust pick-up capacity are preferred. If permitted, launderable dust mops are most cost-efficient choice. Twisted loop mops plus reinforced knitting and easily attachable backing unit bring you best performance and cleaning effects.

Feature of Dust Mop Structures

TWISTED LOOP END

For optimal cleaning of dust and dirt. Twisted loops resist snagging, fraying or unraveling in laundering.

CUT ENDS

Economical construction for general purpose dusting.

REINFORCED KNITTING

Add reinforced knitting on easily-wearing parts for extended service life.

BACKING DESIGN

The backing for easily attaching to and detaching from the frame helps improve your cleaning efficiency.

LAUNDERABILITY

Launderability of dust mops is determined by the times of laundering and drying before the dust mops become worn-out or under-performing. The synthetic and blended dust mop have the highest launderability.

DURABILITY

The durability is indicated by the length of time to change a mop. Synthetic and blended Mops have the highest durability. Antimicrobial fiber mops are more durable thanks to its capability to inhibit the growth of bacteria, reduce odor and prevent fading.

DUST PICK UP

Dust Pick-up Performance means the mop's performance to pick up dirt and dust on the floor. Synthetic and blended Mops have the best dust pick-up performance.

Dust Mops

NAELC® Quick Connect Handles

Product Features:

1. Lightweight aluminum construction.
2. Telescoping handle for cleaning of high place.
3. 6415 can be used with TRUST threaded tools.

6415 can be used with TRUST threaded tools.

Microfibre Technologies

10,000 meter of this extremely fine individual threads weigh just 1 gramme! By comparison: microfibrils are twice as fine as silk fibres (the thinnest natural fibres), 3 times finer than cotton fibres and 200 times finer than human hair. As a result, they offer a much greater "contact surface" for dirt absorption than the fibres commonly used in mops and cloths. Due to their fineness, microfibrils are able to develop a mechanical cleaning activity even in the micropores of surfaces which cannot be registered by the human eye, and easily dissolve dirt and thanks to their hair-like scaly structure, capture them.

■ Ordinary fiber: cleaning still leave dirt

■ Microfiber: bacteria and dirt can be swept by more than 99.9%

The high-quality microfibre amazing cleaning results, so that the floor becomes more bright.

Premium superfine fibers make your floor brighter

Effectively remove over 99.9% bacteria and dirt with less water (only 1.5 L for every 250 m)

Proven Performances To Ensure Healthy, Safe Environments

- Superior microfiber proven to remove microorganisms
- Helps reduce cross-transmission
- Withstands up to 500 commercial launderies

Sustainable Developments Low Cost and High Benefits

- **Economic Return:** Only need water. Save the cost of chemical detergent by 90%. Cut the cost for disposable items and relevant garbage treatment expense.
- **Social Welfare:** Improve the health and safety of operators by eliminating the use of chemical detergent.
- **Environment Benefit:** Reduce the pollution to the environment by reducing the consumption of water and avoiding the use of chemical detergents.

Increase the cleanliness of floor by 45% than the line mop

25% better cleaning effects than traditional micro-fiber dust pads

Microfiber Cleaning System

U-RAG® Microfiber Cloths

Product Features:

1. Double finished edges add durability.
2. Durable construction withstands more than 500 launderings.
3. Allows for sterilization in 100°C hot water without bleaching agent.
4. Color coded products help reduce cross-contamination by differentiating area of use.

Model	Description	Dimensions	Color	Pack

6986	Laundry Net	91.4 x 61.0 cm	WHT	12

Structure of Brooms and Brushes

Proper brooms and brushes shall be selected depending on the floor materials and dirt kinds, in order to improve the cleaning productivity. TRUST provides you with brush heads and bristles applicable for any kinds of floors.

Block Structures

Plastic Foam Blocks
Lightweight, textured surface, durable, resist splitting, deforming and decaying, non-absorbent, extended service life.

Wooden Bodies
Conventional appearance, resist splitting, vulnerable to decay and mildew.

Injection-molded Blocks
Durable, resist splitting, deforming and decaying, non-absorbent, resist bacteria, extended service life.

Bristles-natural Materials

Horsehairs
The ends are subject to special treatment to resist breaking and add durability; Resist scratching even on smooth and polish floor; Not fit for applications on oily or warm surfaces.

Palm Leafs
Palm leaf fibers of medium to high hardness are easy to restore its original form after operation; Fit for use on either wet or dry surfaces.

Tampico Fibers
Soft and medium hardness Tampico fibers are easy to restore its original form after operation; Resists heat, alkaline, solvents and acid; Fit for use on either wet or dry surfaces.

Bristles-synthetic Fibers

Nylons
Very durable and resistant to wear or breaking; Bristles are easy to restore its original form after operation; Resists stain, fade or odor; Fit for use on either wet or dry surfaces; Resists alkaline and most solvents.

Polyvinyl Chlorides
Very durable and resistant to wear or breaking; Bristles are easy to restore its original form after operation, resists stain, water and oil solvents; Not fit for use on residential houses or oily surfaces.

Polypropylenes
Very durable and resistant to wear or breaking; It will neither pollute the floor, nor fade or absorb taste. Resists solvents, acid, oil, bacteria. Fit for use on either wet or dry surfaces

Bristles-metal Wires

Coppers
Resists wearing, won't leave scratches on even hard surfaces; It will not rust; Best for cleaning surfaces of metal or brick which require no scratching.

Stainless Steels
Resists wearing, water and chemical solutions. It will not rust; Easy to restore its original form after operation; Best for tough cleaning jobs such as removal of residues on metals or other persistent dirt.

Steel Bristles
Resists wearing or corrosion; Easy to restore its original form after operation; Best for tough cleaning jobs such as removal of residues on metals or bricks.

Brooms and Brushes

Angle Brooms

Product Features:

1. Ideal for cleaning hard-to-reach areas.
2. Long-lasting stain-resistant Polypropylene bristles.
3. 6623 body comes with 2 handles attachment positions for 2 different cleaning purposes.
4. 6624 cleans the medium-sized rubbish, such as fine sand, leaves and metal shavings, with large cleaning area.
5. Handle is sold separately.

Model	Description	Dimensions	Color	Pack
6613	Angle Broom, PP Fill	29.0 cm	YEL	12
6621	Angle Broom with Handle, PET Fill	19.0 cm	YEL,BLA	6

6644	Hardwood Block, Fine Floor Sweep, Tampico Fill with Horsehair Border	92.0 cm	LAC	2

Medium Floor Sweeps

Product Features:

1. Designed to pick up dirt from multiple floor surfaces.
2. Long-lasting polypropylene and natural Tampico bristles are designed to remove heavier dirt and debris on both rough wood and smooth floor surfaces.
3. Two-threaded handle holes on either side of block for even wear.
4. Available in polypropylene, Tampico, or PET+PP blend.
5. Handle is sold separately.

25119	HEDGEHOG® Signboard	11.2 x 12.5 x 0.9 cm	RED,YEL,BLUE,GRN	12

Ironing Organizers

Product Features:

1. A satisfactory solution for placement of hot iron.
2. Installs easily virtually anywhere.
3. Efficiently stores iron with ironing board for convenience.
4. Durable heat resistant plastic construction.
5. Aesthetic design complements guest room decor.

6951

Model	Description	Dimensions	Color	Pack
6951	Ironing Organizer	13.3 x 29.4 cm	BLA,WHT	6

Commercial Cleaning and Maintenance Gloves

Product Features:

1. Designed for harsh applications and rough materials.
2. Non-skid Neoprene is available at the finger tip to ensure non-slipping.
3. Breathable stretch materials add to comfort.
4. Designed with elastic materials at the palm to reduce shock.

6983

Designed with elastic materials at the palm to reduce shock.

Model	Description	Dimensions	Color	Pack
6983	Heavy-duty Glove, Large	24.5 x 11.4 cm	BLA	6
6984	Heavy-duty Glove, Extra Large	24.5 x 11.8 cm	BLA	6

Professional Kneepads

Product Features:

1. Non-marring cap protects surfaces.
2. Non-skid cap helps to avoid slipping.
3. Breathable perforated Neoprene materials.
4. Notched for comfort when standing.
5. One-strap sizing plus opening for ventilation.

6985

Professional knee pad can protect your knees from harm.

Model	Description	Dimensions	Pack
6985	Professional Kneepads	22.9 x 17.8 x 10.8 cm	6

Folding Stepstools

Product Features:

1. Slip resistant surfaces on steps and foot pads.
2. Easy to transport and space efficient with folded size only 15.9 cm.
3. Plastic web-structure molded, supports loads up to 150 kg.
4. Easy to clean and resistant to dents and rest.
5. Meeting the standards of EN 14183:2003.

Easy to transport.

6932

Model	Description	Dimensions	Load	Color	Pack
6932	Two-step Folding Stepstool	Open: 47.5 x 51.5 x 59.0 cm Closed: 47.5 x 15.9 x 65.0 cm	150 kg	BLA,GRAY,DGRAY	3

Movable Pedals

Product Features:

1. Compression casters for easy mobility.
2. Bearing up to 160 kg.
3. The two pedals are equipped with a soft non-slip pad.
4. The casters will automatically retract upon being pedaled.
5. Heavy-duty plastic structure, solid and durable, and will not damage the walls or furniture.
6. Meeting the standards of EN 14183:2003.

Compression casters for easy mobility

6933

Model	Description	Dimensions	Load	Color	Pack
6933	Movable Two-step Pedal	40.6 x 34.3 cm	160 kg	BLA,BEIG	1

Rotomolded Plastic Pedals

Product Features:

1. Rotomolded; industrial-grade; sturdy and durable.
2. One-piece body construction provides superior strength and durability.
3. The two pedals are equipped with a soft non-slip pad.
4. Bearing up to 160 kg.
5. Rubber pad at the bottom with anti-skid function, increase security.
6. Four direction pedal design, easy to use.
7. Meeting the standards of EN 14183:2003.

6930

Model	Description	Dimensions	Load	Color	Pack
6930	Rotomolded Plastic Pedal	49.0 x 49.0 x 36.4 cm	160 kg	BLA,YEL	1

Multi-function Ladders

Product Features:

1. Complies with the requirements of ANSI 14.2, AS/NZS 1892.1 and EN-131.
2. Patented auto-locking hinge design.
3. Triple modes of A-shaped ladder, straight ladder and extension ladder.
4. Made using premium quality lightweight aluminium, with outstanding strength and durability.
5. Non-slip step design for safety.
6. Reliable soft tips.
7. Can be folded down to save space and transportation costs.
8. Can be folded up to four times of length.

6945 Schematic Work Status

Can be quickly converted into a straight ladder, high operating convenience.

Can be used on the stairs, safe and reliable.

Model	Description	Dimensions	Extension Length	Folding Length	Load	Color	Pack
6945	Multi-function Ladder	131.0 x 60.5 x 20.0 cm	452.0 cm	220.0 cm	150 kg	MSILV	1
6946	Multi-function Ladder	198.0 x 75.0 x 20.0 cm	686.0 cm	334.0 cm	150 kg	MISLV	1

Folding Ladders

Product Features:

1. Made using premium quality lightweight aluminium, with outstanding strength and durability.
2. Can be folded down easily and quickly, compactable for space saving.
3. Non-slip step design for safety.
4. Reliable soft tips.

Model	Description	Dimensions	Load	Color	Pack
6943	Two-step Folding Ladder	Open: 46.0 x 47.0 x 92.0 cm Closed: 46.0 x 15.2 x 98.5 cm	120 kg	BLA	1
6944	Three-step Folding Ladder	Open: 51.0 x 63.5 x 116.0 cm Closed: 51.0 x 15.2 x 123.5 cm	120 kg	BLA	1

Deluxe Carry Caddies

Product Features:

1. Perfect for carrying tools or cleaning supplies.
2. Conveniently fits on cleaning and housekeeping carts.
3. User friendly handles fit your hand and allow for comfortable grip.
4. Securely holds spray bottle (6935) and other common cleaning tools.
5. Allows for stable stacking to save space.
6. Rounded corners ensure safety and prevent against injury.
7. The innovatively designed double-layer toolbox (6955) can carry more cleaning supplies at one time to improve work efficiency.
8. 6955 used with 6956 to place toilet brush.

Model	Description	Dimensions	Color	Pack
6931	Deluxe Carry Caddy	38.6 x 28.0 x 17.0 cm	BLA	6
6955	Double-layer Tool Basket	38.4 x 26.5 x 28.8 cm	BLA	3
6956	Toilet Brush Holder for 6955	10.3 x 9.0 x 9.1 cm	BLA	6

6955 used with 6956 to place toilet brush.

Nozzle and Spray Bottles

Product Features:

1. Suitable for a variety of cleaning jobs to obtain easier and more efficient result.
2. Adjustable nozzle, spray distance up to 75 cm.
3. High-capacity up to 3 ml.
4. Sturdy HDPE spray bottle won't be damaged even in case of collision or falling thanks to its excellent strength and toughness.
5. Ergonomic grip-type nozzle offers comfortable hand feeling and easy operation.

Model	Description	Dimensions	Color	Pack
6934	Nozzle	12.5 x 3.3 x 34.0 cm	RED,YEL,BLUE,GRN,WHT	12
6935	950 ml Spray Bottle	8.9 x 25.0 cm	WHT	12
6947	Spray Bottle with Trigger	12.5 x 8.5 x 34.0 cm	RED	12
6952	650 ml Spray Bottle	8.9 x 20.0 cm	WHT	12

Pneumatic Sprayers

Product Features:

1. Suitable for a variety of cleaning jobs.
2. Sturdy and durable structure.
3. Nozzle adjustable to spray fog or water.

Model	Description	Capacity	Color	Pack
6936	Pneumatic Sprayer	1.0 L	WHT	12
6937	Pneumatic Sprayer	1.5 L	WHT	12
6938	Pneumatic Sprayer	2.0 L	WHT	12

Nippers

Product Features:

1. Safely collects syringes, sharp objects and general waste.
2. User friendly handles provide comfortable and easy maneuverability.
3. The clamp made of soft materials for easy pick objects.

Model	Description	Dimensions	Color	Pack
6996	Nipper	45.0 cm	BLA	12
6997	Nipper	84.0 cm	BLA	12

Toilet Pumps

Product Features:

1. Head made of rubber fit for unblocking toilet and sewer.
2. Produce high pressure for unblocking.
3. Holes on the tailend of handle are available for hanging and storage.

Model	Description	Dimensions	Color	Pack
6939	Toilet Pump	14.0 x 50.5 cm	BLA	12
6940	Toilet Pump	14.5 x 51.5 cm	BLA	12

Scrapers

Product Features:

1. Heat treated carbon steel blade for maximum strength.
2. The blade contains a polished and clear coated protectant against corrosion.
3. The contoured handle helps reduce labor.
4. Non-slip elastic handle offers a comfortable feeling.

Model	Description	Dimensions	Color	Pack
6981	8.0 cm Scraper	21.3 x 7.6 x 2.4 cm	BLA	6
6982	4.0 cm Scraper	20.3 x 4.0 x 2.4 cm	BLA	6

Heimdall® Baby Changing Stations

Product Features:

1. Wide table is equipped with adjustable seat belts, safety and reliability.
2. All plastic web structure ensures strength and durability.
3. Die casting molding is convenient for hanging accessories.
4. The storage units at the top of table is convenient to place baby care products.
5. Closed thickness is only 10.2 cm, save the space.
6. Table is equipped with handle, convenient to open.
7. Built-in shelf and liner storage.
8. Antibacterial technology can inhibit bacteria growth and odor effectively.
9. Meeting the standards of ASTM F2285 and EN 12221-1.

8021

8023

Die casting molding is convenient for hanging accessories. The storage units at the top of table is convenient to place baby care products.

MICROBAN®

Microban® Anti-bacteria Protection Technologies

1. Microban® anti-bacteria technologies provide full protection and resist odor and stain due to bacteria.
2. Microban® anti-bacteria ingredients have been added to the baby changing station during its production for permanent protection.

Plastic sample without Microban® anti-bacteria ingredients.

Plastic sample with Microban® anti-bacteria ingredients.

Model	Description	Dimensions	Color	Pack
8021	Heimdall® Baby Changing Station	Closed: 84.5 x 54.6 x 10.2 cm	LPLAT	1
8022	Protective Liners for Baby Changing Station (20 units)	32.5 x 44.5 cm	WHT	16
8023	Heimdall® Baby Changing Station	Closed: 58.4 x 86.6 x 10.2 cm	LPLAT	1

Kid&Cool® Microban® Infant Safety Seats

Product Features:

1. All plastic web structure ensures strength and durability.
2. Strap type safety belt, effectively protect the safety.
3. Closed thickness is only 13.0 cm, save the space.
4. Smooth surface for easy cleaning.
5. Antibacterial technology can inhibit bacteria growth and odor effectively.
6. Meeting the standards of ASTM F2613 and EN 12520.

8031

Model	Description	Dimensions	Color	Pack
8031	Kid&Cool® Microban® Infant Safety Seat	Closed: 35.5 x 13.0 x 48.6 cm	LPLAT	1

Microban® is the registered owner of Microban® trademark, and reserves all the rights. Microban® anti-bacteria protection doesn't prevent the infection of diseases and is not a substitute for routine cleaning.

Feminine Sanitary Bins

Product Features:

1. The safe, sanitary solution for handling personal disposals.
2. Smooth surfaces are easy to clean and avoid hidden dirt and bacteria.
3. Pedal operation avoids direct contact.
4. Deep grooves that prevent sanitary napkins from adhering to bin walls.
5. Lined interior prevents from being stained.

Model	Description	Dimensions	Capacity	Color	Pack
6948	Pedal Sanitary Bin	41.9 x 15.5 x 49.0 cm	11 L	WHT,GRAY	1

Wall-mounted Sanitary Napkin Receptacles

Product Features:

1. Save space, easy to use.
2. Tightly-sealed cover prevents odors spreading.
3. Detachable stiff liner is easy to clean and maintain.
4. Smooth surface for easy cleaning.
5. Five waxed bags are included for easy collecting wastes and maintaining clean inner walls.
6. 5 wax bags included.

Model	Description	Dimensions	Color	Pack
6950	Wall-mounted Sanitary Napkin Receptacle	27.3 x 13.3 x 31.8 cm	WHT	1
6998	Waxed Bag(50 per bundle)	22.2 x 21.6 cm	N/A	5

Bath Mats

Product Features:

1. Does not contain natural rubber latex may cause allergic reactions.
2. Perfect for shower stall or bathtub.
3. Suction-backed to stay firmly in place.
4. Textured surface prevents slippage.
5. Products containing antibacterial agents, inhibit the growth of bacteria, mildew resistant.

Model	Description	Dimensions	Color	Pack

Innovative Designs

TRUST platform trucks and utility carts provide you with transport facility meeting your demands in any environment.

Resist Distortion, Denting, Breaking, Rusting and Decaying

Tough, resilient surface absorbs impact and provides quiet operation. Virtually maintenance-free; resistant to most chemicals, impervious to water damage, and can be easily cleaned.

Metal: Dents and rests.

Wood: Splinters and rot.

Transport Materials Effectively and Safely

The handle on the cart is adjustable to fit your height and reduce muscle strain.

Polyolefin

Pneumatic

Thermoplastic Rubber

Casters Meeting Your Demands

Select optimized casters for each product through repeated tests to provide you with most effective and durable material transport solution.

Mobile Work Centers

Bitbar® Mobile Work Centers

Product Features:

1. Innovative design for easily transporting any items.
2. Sturdy structural foam construction won't rust, dent, chip, or peel.
3. Molded-in storage compartments and cup holder are available for storage of small items and tools.
4. User friendly handles provide comfortable and easy maneuverability.
5. 12.5 cm non-marking casters (two fixed and two swivel with full braking mechanism) ensure easy maneuverability.
6. Full extension metal drawers with ball bearing slides are available.

4033

4031

4032

The top has open-side to enable convenient use.

The grooves on the top prevent small items against rolling out.

Lockable storage compartment helps keep contents secure.

Sturdy aprons up to 67 mm height prevent items against rolling out.

Doors open up to 270 degrees provide easy access to content.

Ladder Carts

Product Features:

1. For storing and moving 1.8 m ladder without damaging walls, doors or elevators.
2. The cart body is made of commercial grade plastic and galvanized steel. Maximum load up to 250 kg.
3. Compact design enhances the operability of the cart, and take up less space.
4. Cart height is ergonomically designed to offer comfortable working.
5. The cart is for storage of ladders and other long objects, and fits for a variety of work environments.

Tool case, can be used as a worktable after being turned over.

Tool Holder, assists easy operation of small tools.

Unlock the buckle to remove the ladder easily.

Lock the buckle to fix the ladder easily.

Sturdy structural foam.

Tool Holder, assists easy operation of small tools.

Two non-marking 12.5 cm casters and two swivel casters with full-locking mechanism.

Select Casters Meeting Your Demands

Every TRUST carts and trucks use top heavy-duty casters to meet every demands.

PP Casters

PP casters are easier to move than soft casters. They are non-marking, resistant to impact and chemical corrosion, and will neither slide off the course, nor get metal debris or nails attached under load. Excellent on surfaces of concrete, wood, carpet and steel.

Pneumatic Casters

Ideal for fragile goods. Let the trucks run quietly on uneven, rough surfaces, just as they are moving on a soft cushion. Excellent on nearly all surfaces, including smooth concrete surfaces and rough gravels.

TPR Casters

TPR casters help reduce shock, protect the floor and run quietly. Excellent on tiles, Terrazzo, wood, smooth concrete, and carpets.

World-class Durability

- TRUST carts outperform the products of our industry peers on the durability test.
- TRUST platform trucks have unique design to ensure long life and to make your job easier.

Advanced Structural Foam Technology

- New technology of low-pressure injection molding has no internal stress.
- Optimized composite structure of the cortex and the core layer gains more bending cross-sectional area for equal amounts of materials and enhances the stiffness of the structure parts.
- Honeycomb core layer has good cushioning performance and better impact resistance.
- Blend structure of plastic and metal has the carrying capacity 50-60% higher than that of traditional products.

Multiple Solutions

- We offer you multiple products in different sizes to meet the demand on various occasions.

Platform Trucks

Oeasy® Platform Trucks

Product Features:

1. Perfect for transporting heavy loads in any environment.
2. User friendly handles help to maneuver the cart and ensure the safety of operators.
3. Molded-in structure adds strength and durability, and prolongs the service life.
4. Textured surfaces for non-skid and safe transporting.
5. Grooves close to edges help prevent small items against rolling out.
6. Notches on both sides are for secure binding of items.
7. Flexible fixing clip helps to prevent accidental release of handle while allowing easy disassembly.
8. Powder coated steel handle is durable.

4411

Powder coated steel handle is durable.

User friendly handles help to maneuver the cart and ensure the safety of operators.

Grooves close to edges help prevent small items against rolling out.

Textured surfaces for non-skid and safe transporting.

Notches on both sides are for secure binding of items.

Flexible fixing clip helps to prevent accidental release of handle while allowing easy disassembly.

Oeasy® Sheet & Panel Trucks

Product Features:

1. Designed for transporting bulky plate-like items and difficult-to-move items, such as doors, wood, stone slab, tabletop and wardrobes, etc.
2. Molded-in structure adds strength and durability, and prolongs the service life.
3. Three removable power-coated steel vertical frames provide support for bulky loads. Frames can be removed as needed based on load requirements.
4. Textured surfaces for non-skid and safe transporting.
5. Grooves close to edges help prevent small items against rolling out.
6. Notches on both sides are for secure binding of items.
7. Flexible fixing clip helps to prevent accidental release of handle while allowing easy disassembly.
8. Powder coated steel handle is durable.

Utility Trolleys

Product Features:

1. Efficiently transports large bulky loads, and then folds flat for easy storage.
2. Sturdy structural foam deck won't rust, dent, chip, or peel.
3. Non-skid platform surface helps prevent load shifting.
4. Three-position handle lets users push, pull or fold flat for use as a dolly.
5. Casters are non marking.

4482

Three different positions of the handle, provide greater flexibility, and convenience store

Totes Trolleys

Product Features:

1. Has maneuverability of carrying heavy objects.
2. Sturdy structural foam construction won't rust, dent, chip, or peel.
3. Non-marking swivel casters ensure easy maneuverability.
4. 4483 used to load Large Totes (3011/3012) and 55.5 x 35.0 cm Containers.
5. 8888 used to load 60.0 x 40.0 cm Containers.
6. 8889 used to load 69.0 x 49.0 cm Containers.

4483

8888

8889

Has maneuverability of carrying heavy objects.

Stackable for convenient storage and space saving.

Bitbar® Tool Boxes

Product Features:

1. Removable trays provide added compartmentalized storage area.
2. Padlocked for security.
3. 3512 put a 3 cm cushion on the top of box to make it a seat.
4. Handles are provided at both sides of 3511/3512, and optional casters (3513) are convenient for carrying heavy objects.
5. 3514 has diverse compartments, which can store various tools orderly; the transparent cover design can quickly identify the items inside the box.

Built-in two sub-grid boxes, for easy storage.

3512 with 3 cm thick comfortable cushion.

Cover both ends of a parts box with transparent cover.

3514 has adjustable compartments, which can be adjusted according to the size of the storage tools.

Model	Description	Dimensions	Load	Color	Pack
3511	Tool Box	91.6 x 47.0 x 50.9 cm	135 kg	BLA	1
3512	Tool Box with Cushion	91.6 x 47.0 x 53.9 cm	135 kg	BLA	1

4483	Totes Trolley	63.0 x 43.5 x 18.5 cm	N/A	BLA	1

Works with dollies to carrying heavy loads fast and convenient.

THOR® Stackable Tote Bins

Product Features:

1. Fits 120 x 100cm pallets with no overhang.
2. Nestable for efficient storage and transport.
3. Stackable with and without lids.
4. All-plastic construction will not rust, dent, chip, or peel.
5. Complies with the requirements of NSF #2.

3021

3022/3023

Model	Description	Dimensions	Capacity	Color	Pack
3021	Stackable Tote Bin	59.2 x 39.2 x 27.0 cm	40 L	GRAY	6
3022	Stackable Tote Bin	59.2 x 39.2 x 36.0 cm	55 L	GRAY	6
3023	Lid for 3021/3022	60.0 x 40.0 x 3.3 cm	N/A	GRAY	6

Multi-function Ladders

Product Features:

1. Complies with the requirements of ANSI 14.2, AS/NZS 1892.1 and EN-131.
2. Patented auto-locking hinge design.
3. Triple modes of A-shaped ladder, straight ladder and extension ladder.
4. Made using premium quality lightweight aluminium, with outstanding strength and durability.
5. Non-slip step design for safety.
6. Reliable soft tips.
7. Can be folded down to save space and transportation costs.
8. Can be folded up to four times of length.

6945 Schematic Work Status

Can be quickly converted into a straight ladder, high operating convenience.

Can be used on the stairs, safe and reliable.

Model	Description	Dimensions	Extension Length	Folding Length	Load	Color	Pack
6945	Multi-function Ladder	131.0 x 60.5 x 20.0 cm	452.0 cm	220.0 cm	150 kg	MSILV	1
6946	Multi-function Ladder	198.0 x 75.0 x 20.0 cm	686.0 cm	334.0 cm	150 kg	MISLV	1

Folding Ladders

Product Features:

1. Made using premium quality lightweight aluminium, with outstanding strength and durability.
2. Can be folded down easily and quickly, compactable for space saving.
3. Non-slip step design for safety.
4. Reliable soft tips.

Model	Description	Dimensions	Load	Color	Pack
6943	Two-step Folding Ladder	Open: 46.0 x 47.0 x 92.0 cm Closed: 46.0 x 15.2 x 98.5 cm	120 kg	BLA	1
6944	Three-step Folding Ladder	Open: 51.0 x 63.5 x 116.0 cm Closed: 51.0 x 15.2 x 123.5 cm	120 kg	BLA	1

Folding Stepstools

Product Features:

1. Slip resistant surfaces on steps and foot pads.
2. Easy to transport and space efficient with folded size only 15.9 cm.
3. Plastic web-structure molded, supports loads up to 150 kg.
4. Easy to clean and resistant to dents and rest.
5. Meeting the standards of EN 14183:2003.

Easy to transport.

6932

Model	Description	Dimensions	Load	Color	Pack
6932	Two-step Folding Stepstool	Open: 47.5 x 51.5 x 59.0 cm Closed: 47.5 x 15.9 x 65.0 cm	150 kg	BLA,GRAY,DGRAY	3

Movable Pedals

Product Features:

1. Compression casters for easy mobility.
2. Bearing up to 160 kg.
3. The two pedals are equipped with a soft non-slip pad.
4. The casters will automatically retract upon being pedaled.
5. Heavy-duty plastic structure, solid and durable, and will not damage the walls or furniture.
6. Meeting the standards of EN 14183:2003.

Compression casters for easy mobility.

Model	Description	Dimensions	Load	Color	Pack
6933	Movable Two-step Pedal	40.6 x 34.3 cm	160 kg	BLA,BEIG	1

Rotomolded Plastic Pedals

Product Features:

1. rotomolded; industrial-grade; sturdy and durable.
2. One-piece body construction provides superior strength and durability.
3. The two pedals are equipped with a soft non-slip pad.
4. Bearing up to 160 kg.
5. Rubber pad at the bottom with anti-skid function, increase security.
6. Four direction pedal design, easy to use.
7. Meeting the standards of EN 14183:2003.

6930

Model	Description	Dimensions	Load	Color	Pack
6930	Rotomolded Plastic Pedal	49.0 x 49.0 x 36.4 cm	160 kg	BLA,YEL	1

Storage Pallets

Product Features:

1. For overflow operation as drum filling and sub-packaging, chemical and electrolyte storage etc.
2. It prevents leakages of most chemicals including acids, alkaline and corrosive liquids.
3. Molded construction adds to strength, strong and durable, will not rust, dent, chip, or peel.
4. Removable grids for gathering leaked liquids.
5. Optional 4503 slopes for handling heavy drums; rubber strips on surface assure safety.
6. Non-forklifting; no IBC containers allowed.

4493	Goods Shelf	152.0 x 53.3 x 30.5 cm	1360 kg	BLA	1

Container Tools

Nestable Pallets

Product Features:

1. Structural foam molded handles ensure strength and durability.
2. Nestable stacking, easy to clean, light weight.
3. Made of HDPE materials, recycling use offers low cost.
4. Materials comply with the requirements of domestic and foreign regulations on the Food and Drug Sanitation.

PNB1210

Stacking coefficient (2.2), to save storage space of the pallet.

Designed for easy entry of forklift to save the time and make job simple.

Vents are available on areas prone to water accumulation, so as to eliminate the possibility of water accumulation even when kept in open air.

Model	Description	Dimensions	Fork height	Load(Static/Dynamic)	Color
PNB1111	Nestable Pallet	110.0 x 110.0 x 14.7 cm	9.5 cm	2500 kg / 1000 kg	BLA
PNB1208	Nestable Pallet	120.0 x 80.0 x 14.7 cm	9.5 cm	2000kg / 1000 kg	BLA
PNB1210	Nestable Pallet	120.0 x 100.0 x 14.8 cm	9.8 cm	2500 kg / 1000 kg	BLA

Shelf Pallets

Product Features:

1. Structural foam molded handles ensure strength and durability.
2. Easy to clean, light weight.
3. Made of HDPE , which can be used repeatedly for low cost.
4. Integral double-sided plastic pallet structure fits for stacking, shelving systems and cargo transportation.
5. Designed with consideration for cleanliness and sanitation, helpful for reduction of cleaning frequency.
6. Pallet design is CAE optimized to attain lightweight and more load capacity.

PRB1210

Designed for easy entry of forklift to save the time and reduce the possibility of damage.

The solid, extra-thick base ribs are purposely arranged to increase the strength of pallet base, thus enhance its shelving and stacking durability.

The grid structure allows for easy and simple cleaning, and eliminates the problem of water accumulation even stored in open air.

Model	Description	Dimensions	Fork height	Shelf Load(Static/Dynamic)	Color
PRB1210	Shelf Pallet	120.0 x 100.0 x 16.7 cm	9.4 cm	13500 kg / 2300 kg	BLA

Stacking Pallets

Product Features:

1. Structural foam molded handles ensure strength and durability.
2. Easy to clean, light weight.
3. Made of HDPE, which can be used repeatedly for low cost.
4. Pallet design is CAE optimized to attain lightweight and more load capacity. Patent leg design for easy servicing.
5. All-plastic structure and smooth surfaces reduce the possibility of damage to products.
6. Materials are in compliance with the requirements of domestic and foreign laws/regulations on food and drug sanitation.

PSB1210

Patent detachable legs can be easily replaced when the pallet is partially damaged.

The round corner of leg and the bevel angle of top and base plates are designed for easy operation of forklift.

Extra-large area base plate ensures maximized contact area between the material and the plate to enhance the stacking stability.

Model	Description	Dimensions	Fork height	Load (Static/Dynamic)	Color
PSB1210	Stacking Pallet	120.0 x 100.0 x 14.9 cm	7.6 cm	4500 kg / 1200 kg	BLA

Heavy-load Bulk Containers

Product Features:

1. Structural foam molded construction ensures strength and durability.
2. Easy to clean, light weight.
3. Provide reliable protection to contents when used in picking, assembling, processing, warehousing and logistics operation in various industries.

BCHA4845-39

Large size flip door for easy loading and unloading of cargo.

Comes with a top cover with drainage and locking functions. Superior durability; and capable of preventing dust contamination to the contents.

The bulk container can be folded to save storage space and reduce transport cost.

Model	Description	Container External Dimension	Container Internal Dimension	Load	Color

Better Food Services

Our innovative products can ensure food freshness, reduce costs, and service for all your needs.

Sustainability Commitment

Good product design, sound recyclability and durability, and use of environmentally friendly materials are our efforts made for environmental sustainability, so that people can live and work in a more beautiful environment.

Safety Commitment

Our products meet food preparation, storage and transport industry standards.

Food Storage

Food Material Storage Bins

Product Features:

1. Designed with a connected lid and a separate spoon to enable fetching materials with only one hand, for higher work efficiency.
2. Designed with a transparent lid to quickly identify the type of contents and allows for easy inventory management.
3. Smooth walls assist easy cleaning without leaving behind any dirt.
4. All plastic web structure ensures strength and durability.
5. The lid is easy to open for higher work efficiency.
6. Found in compliance with NSF standards.

Model	Description	Dimensions	Capacity	Color	Pack

Food Preparation

Scraper/Spoon-shaped Scrapers

Product Features:

1. A multipurpose tool combining spoon, scoop and scraper.
2. Body and handle are integrally molded to eliminate the possibility of coming off.
3. Seamless structure eliminates the retention of dirt and bacteria.
4. The convex design on the back of scraper prevents the contact between the blade and the worktable for reducing the possibility of food contamination.
5. Traditional flat scraper is for scraping; Spoon-shaped scraper is used to scoop, dig and wipe.
6. All the handle and body are white.
7. Found in compliance with NSF # 2 inspection standards.
8. Dishwasher safe.

Model	Description	Dimensions	Color	Pack

CERTIFICATIONS

ISO-international Organization for Standardization

ISO9001-2001 is an internationally recognized quality management system that provides:

1. Guidance for businesses that want to implement or improve quality systems within their business.
 2. Benchmarks that customers can use to evaluate an organization's quality system.
 3. Represents a commitment to continuous value improvement.
- ISO 14000 is a family of standards to plan, implement, inspect and review environment management and operation system to enhance the environment protection:
1. Promote the implementation of environmental management regulations and systems.
 2. Promote the improvement of environmental management within the business.
 3. Promote the harmonious development of environment and economy.

ASTM Certification

ASTM F404 is the American Society for Testing and Materials' safety standard for evaluating a High Chair. TRUST youth seat has been approved in ASTM F404 testing.

ASTM F2285 is an American Society for Testing and Materials' safety performance specification that establishes performance requirements, test methods, and labeling requirements to minimize the hazards to children presented by Diaper Changing Tables for commercial use with children up to 22.7KG. TRUST baby changing station passed the ASTM F2285 testing.

QS Certification

Quality Safety. TRUST has been granted a QS production license certificate.

HACCP Certification

Hazard Analysis and Critical Control Points is a systematic method using principles (Food Hygiene Practices) for analyzing food process and determining the possible chemical, physical, and biological hazards within that process that should prevent any unsafe food from leaving the process.

FDA Certification

Under regulations administered by the U.S. Food and Drug Administration (FDA), this product, as supplied by Eastman Chemical Company, may lawfully be used on the basis of 21 CFR 174.5(d)(5) as a component in the manufacture of repeated use food-contact articles as described in Food Contact Notification No. 729. The finished food contact article containing this polymer is intended to contact all types of food at temperatures up to and including 100 °C (for definitions of food types, refer to Tables 1 and 2 at website <http://www.fda.gov/Food/FoodIngredientsPackaging/FoodContactSubstancesFCS/default.htm>). This formulation contains a proprietary additive which complies with the regulations for indirect food additives published by the U.S. Food and Drug Administration. In addition, the general provisions for indirect food additives in 21 CFR 174.5 are applicable to the use of this product.

China Environmental Labeling

China Environmental Labeling Product Certification is the most authoritative certification of green products and environmental-friendly products in China, to recognize the product quality and environmental performance and confirm that the products meet the national standards for environmental protection requirements on behalf of the government.

UL Certification

Underwriters Laboratory (UL) approved containers (1261/1262 /1263/1264) , up to UL94-2010 standard, while rated to be V0.

NSF Certification

NSF (National Sanitation Foundation) is committed to standards development, product testing and certification services in the fields of public sanitation and security. It's a widely recognized leading global provider of public health and security certification.

ISTA-international Safe Transit Association

TRUST has ISTA-certified laboratory for testing and certification of transport packaging.

EU Certification

The EU issued directive 1935/2004 for substances in contact with food. The purpose of this directive is to ensure that materials and substances in contact with food directly or indirectly is safe to the consumers both in design and structure. The TRUST food storage box (3011/3012) has been proved safe by relevant EU tests.

TÜV Certification

TÜV is a security authentication marks which Germany TÜV specially made for components products. It has been widely accepted in Germany and Europe. The purpose of safety standards is to prevent household electrical products, mechanical products, automobile products causing the danger personal injury and property damage during the using process.

GS Certification

GS is the meaning of "German Geprüfte Sicherheit" (security certification). GS is recognized by European market as German security authentication marks, which based on German product safety (GPS), and it is also a voluntary certification according to the European standard EN or German industrial standards DIN testing. TRUST multi-purpose draw ladder (6945/6946) passed GS testing.

LEGEND

Need to be assembled by yourself.

Untouching products, reduce the risk of exposure to dirt.

Color-coded cleaning system.
Please select proper color-coded equipment depending on the area to prevent cross-contamination.

Blue: For cleaning office and lobby.
Yellow: For general purpose cleaning of bathroom.
Red: For cleaning areas susceptible to high cross-contamination, such as toilet and bathroom.
Green: For cleaning food service facilities, such as dining room, kitchen, canteen.

UV absorber is added to extend the service life in outdoor applications.

Made of Eastman Tritan™ copolymerization pet food container, it does not contain toxic chemical bisphenol A (BPA) and can prevent food safety risks.

Bisphenol A is harmful to health. Animal experiments proved that the effects of mimicing estrogen, even very low doses can make animals produce female precocious, sperm count down and prostate growth. Study confirms that bisphenol A has certain embryo toxicity and teratogenicity, it can obviously increase the animal ovarian cancer, prostate cancer, leukemia and other cancers.
